CPD Seminar

Leading OSH Conversations under COVID 19:

How do Utility Organizations Adjust to the New Normal?

Date : 25th Sep 2020 (Friday)
Time : 19:00-21:00
Venue : **Online Seminar** (Participants will only need a device which can get access to the internet and contains AV system.)

Part 1 : Sharing of COVID-19 Control Measures in Utility Works

Speakers : [Mr. Victor Kwong, The Hong Kong & China Gas Co., Ltd. \(Towngas\)](#)
Mr Victor Kwong is General Manager – Corporate Sustainability and Chairman of the Towngas Environmental Working Committee. He is also Director of Business Environment Council, Immediate Past President of The Hong Kong Federation of Occupational Safety and Health Associations, etc. Towngas operates over 250 projects in Hong Kong and Mainland China. These include piped city-gas projects, upstream, midstream and downstream natural gas sectors, water sectors, efficient energy applications and exploration & utilization of emerging environmentally-friendly energy, telecommunications etc. Mr. Kwong has more than 35 years of experience in the areas of corporate sustainability, environmental protection, occupational health and safety, fire protection and crisis management. He coordinates the corporation's efforts to improve sustainability and safety performance through effective risk management system, energy saving programs, carbon reduction, climate change risk reduction, etc.

[Ms. Maisie Mei Sin Wong, MTR Corporation Limited](#)

Ms. Maisie Wong is a safety and health professional with 15 years of experience in transportation, and manufacturing industries. Maisie is the Manager of Safety and Health in Corporate Safety Department for MTR Corporation with rail and property operations in Hong Kong, as well as in UK, Sweden, Australia, and Mainland China. She devotes herself to be a Chairman of Editorial Board of Society of Registered Safety Offices of Hong Kong (SRSO). Maisie holds BS(Hons) of Chemistry from the University of Science and Technology of Hong Kong and Master Degree of Environment from the Melbourne University. The talk will address the aspiration of global 'Vision Zero' movement, and the systems and processes organisations need to take on the journey in reduction health and safety accidents. The speaker, Ms Maisie Wong, will discuss how MTR Corporation takes on 'Vision Zero' and transforms it into its own Zero Harm campaign with an aim to promulgate a preventive safety culture among the workforce. Ms Wong will discuss the impact of COVID-19 to the workforce under the new normal, and offer helpful tips for management to achieve a high level of health and safety using the Zero Harm approach during this difficult time.

Mr. Boris Ho, The Hongkong Electric Company Limited

Mr. Boris Ho joined HK Electric in 1989 and has more than 30 years of working experience in power system. He is currently the Senior Manager (Loss Prevention & Training) looking after the safety management system and environmental management system of power transmission and distribution operations as well as loss prevention and training of HK Electric. He is a member of Hong Kong Institution of Engineers and a Chartered Electrical Engineer in UK. He is a member of Disciplinary Board Panel [Factories and Industrial Undertakings (Safety Management) Regulation] and a member of Electrical & Mechanical Services Industry Training Advisory Committee under Qualification Framework of HKSAR Government.

Mr. W.M. Ho, CLP Power Hong Kong Limited

Mr. W.M. Ho is an engineer and safety practitioner, he has served CLP Power for more than 35 years. Prior to this appointment as the Acting Senior Manager of Safety, Health, Environment and Quality, Mr. Ho also has played various key roles in the company including Engineer I, Technical and Safety Audits Manager, Risk Management Manager, & Safety Health and Environment Manager. Throughout his career in CLP, Mr. Ho has spent a lot of effort in practicing and promoting operational and occupational safety. Mr. Ho is a Registered Safety Officer and holds a MSc. in Occupational and Environmental Health and Safety Management and is now responsible for leading Power Systems Business Group towards achieving excellence in Operational Safety, Occupational Safety, Health and Environment as well as Quality Assurance.
