Background

Smart city and Sponge city are hot topics for all the developed world cities, Hong Kong has no exception.

There is a keen connection between smart city/sponge city and utilities.

Indeed, Utilities affects our city safety, security and livings which may be divided into Location, Condition and Management (位置·狀況及管理).

Good utility management with help of controls and asset management yield in good safety, security and hence good livings of citizens.

ICUMAS (國際管綫管理及安全大會), is a major conference held by the Hong Kong Institute of Utility Specialists (香港管綫專業學會) (HKIUS) and International Institute of Utility Specialists (國際管綫專業學會) (IIUS) to discuss the popular issues on utility management and safety.

The 1st ICUMAS was held in 2009 and we have 2nd, 3rd and 4th in 2011, 2013 and 2014 respectively.

In 2015, we have Utility Safety & Practical Competition which successfully attracted over 1500 entries.

For 2017, HKIUS together with IIUS, CIC (建造業議會) and HKIE-CAD (香港工程師學會 - 控制、自動化及儀器表分部) decided to keep on hosting 5th ICUMAS (第五屆國際管綫管理大會) and to be held from 29th to 31st March 2017 (2017年3月29-31日).

With sincerest thanks to keen supports from different parties for the previous conferences and competitions, we invite individuals or corporations interested to take part in ICUMAS 2017 as Authors, Sponsors or participants.

Our theme for ICUMAS 2017 is "BIM, Control & Utility Management for Smart City and The Sponge City" "建築信息模擬在智慧城市及海綿城市的控制與管綫管理".

Building Information Modelling (BIM) is a new tool to manage information relating to asset creation and asset management. It is a new way of working using new technology to facilitate project management, construction process control, cross-disciplinary collaboration, stakeholders' communication, decision making support, productivity management, risk management, etc. "BIM in Hong Kong: What is Your Contribution?" is the main theme of the BIM Session of this Conference.

• 2nd International Conference on Utility Management & Safety 2011

• 3rd International Conference on Utility Management & Safety 2013

• The 4th International Conference on Utility Management & Safety (ICUMAS) Summit & China International Underground Pipeline Exhibition & Conference 2014

• CIC's BIM Excellence Awards 2014 - Construction Innovator by BIM

• CIC's BIM Excellence Awards 2014 - Young BIMer of the Year

• CIC's BIM Excellence Awards 2014 - BIMer of the Year

Benefits

• CPD Certificates

Submitting Abstract – CPD certificate with 1 hour

Submitting Full Paper and Conducting Presentation – CPD certificate with 7 hours

• Presentation Opportunities

Conducting presentation in front of symbolic government officials, delegates, and more than 300 visitors.

*CPD hours would be counted depending on the duration of attendance (Max 14 hours).

• Best Paper & Best Presentation Award

The papers which fall within the general theme "BIM, Control Utility Management for Smart City and the Sponge City" of the conference will be considered for presentation. Conference proceedings will be published and made available at the conference. An abstract (maximum of 300 words) should be sent to the conference secretariat no later than **31 December 2016**. Collected abstracts will be reviewed by the Technical Review Board members, and submission invitation of the full paper would be sent to the shortlisted authors. The acceptance of paper requires the named author to attend the Conference in person to give the presentation. Nomination of senior staffs to submit abstract are also welcome.

• Student Paper Award

Students are welcome to submit abstracts and papers.

Topics

Location

1. Utility Mapping
2. GPR Surveys for Utilities and Buildings
3. Training and Education for Utility Survey and Management
4. Mapping System (GIS/ BIM)
5. Research on Mapping Accuracy and Standards
6. Long Range Utility Alignment Survey

Condition Assessment

7. Building Services Condition Assessment Methods
8. Cooling Mains
9. Drainage Condition Assessment (CCTV, ME, Sonar or others)
10. Water Mains Assessment
11. Gas Main Assessment
12. Cathodic Protection
13. Condition Assessment System (GIS or others)
14. Slope Safety Assessment
15. Water Leakage Detection and Survey
16. Pipe Rehabilitation

Utility Management & Control

17. Utility Management & Practice
18. Utility Safety Management
19. Utilities for Smart City
20. Intelligent System for Utilities
21. Utility Risk Management
22. Public Utility Management
23. BIM for Infrastructures
24. Utility Project Management
25. Utility Data Management
26. GIS for Utilities
27. Materials
28. Common Utility Trenches/Ducts
29. Leakage Control and Management System
30. Smart Utilities
31. Utility Specialists in the World
32. Control Systems for Utilities

Submission Schedule

Deadlines	Description
31 December 2016	Abstract Submission
15 January 2017	Releasing Selection Result of Abstract
15 February 2017	Full Paper Submission
15 March 2017	PowerPoint Slides for Presentation Submission
