

2 CPD hours

CPD Seminar

Common Hazardous Work Environment in Construction Site that can be found in Large-Scale and Complex Projects

Date : 08th August, 2019 (Thursday)
Time : 19:00-21:00 (Registration starts at 18:45)
Venue : KB 531
5/F, Knowles Building
University of Hong Kong, Pokfulam Road

Highlights of the seminar:

There are countless locations within construction sites, sometimes may be unaware by site operatives, which hide certain hazardous spots that may trigger accidents, in particularly for those projects with huge working areas and involving operations in complicated build-environment. These can be fatal and required highly experience personnel other than just the safety people to handle in order to ensure absolute safety on site.

Ir. Raymond Wong, the speaker of this seminar, will make use of huge amount of his pervious case-references to illustrate this kind of potential site situations. The case references he uses to illustrate will include buildings, civil and other projects of extremely complicated work nature.

Speaker:

Ir. Wong, Raymond Wai-man

Ir Raymond Wong is an independent researcher and a lecturer in the Division of Building Science and Technology at City University of Hong Kong. He joined the construction profession in 1977 and obtained his first professional qualification as a Chartered Builder in 1982. Ir Wong is currently a member of the Hong Kong Institution of Engineers and a retired member of the Chartered Institute of Building. Ir Wong has conducted a series of studies in tall building construction, industrialized construction systems, urban studies, infrastructure projects and other related studies since 1995. He has published more than 150 papers/articles of various nature and topics based on his studies in such areas.
