CPD Seminar :

UAV (Unmanned Aircraft System) Safety (Part 1 of UAS Series)

Date and Time : 4th March 2019 Monday (6:45 – 8:30pm)

Venue : LT-9, 4/F, Yeung Kin Man Academic Building (AC1), CityU

Speaker : **Sr. Wong Yung Shing (Chartered Surveyor)**

- Registered Professional Surveyor (GP), Hong Kong
- Fellowship Chartered Building Engineer
- President & UAS Fellowship Aviation Operator, Instructor & Trainer, HK UAS Flying Club Association
- Ex-Sino Foreign private jet airline JVE Executive Director
- USA ISTAT Aircraft Trading & Appraisal Registered Member
- Legal Counsel (Property & Aviation/Airport Infrastructure)

Language medium : Cantonese with presentation material in English, supplement using English any time if needed.

Seminar Highlights :

The usage of UAS is emerging and also occasioning the air collision in recent years. Intrusion into the controlled airspace causes grave concern of the aviation authorities. The main reason is the scant supply of proper UAS aviation education & training while normal flying in the low-altitude airspace is illusionally deemed to be a complete performance of safe operation of an UAS. This workshop will convey precise aeronautical knowledge of safe operation of an UAS in terms of drone device, operational management, project planning & on-site measures, flying stability, maintenance and repairing, UAS manufacturer's input, operator's education & training, human factors, constraints of nature, legal compliance and sustainable professional development.
